## Learn How to Implement Lasting Change

### **Motion Leadership: The Skinny on Becoming Change Savvy**

Michael Fullan, one of the world's foremost experts on sustainable change in education, introduces the concept of *Motion Leadership* and how you can move individuals, institutions, and whole systems forward. This is the skinny on change—the essential components of how it happens, the basics of what to do, and your straight-forward role within it. Become change savvy as you watch *Motion Leadership the Movie* and journey through effective schools and school systems that have accomplished measurable institutional change. Fullan moves the practices observed within these systems into theory that you can then apply to your own action planning. There has never been a more in-depth and real exploration of what it takes for school leaders to put real change in motion!

*Motion Leadership* uses the power of PD 360®—the world's largest online community of educators. This online professional learning experience engages you through videos, interactive tools, research, and journaling activities, and then deepens your understanding as you engage with fellow educators in PD 360's interactive online community.

**Michael Fullan** is professor emeritus of the Ontario Institute for Studies in Education of the University of Toronto. Recognized as a worldwide authority on educational reform, Fullan is engaged in training, consulting, and evaluating change projects around the world, and his books have been published in many languages.
